PERFORMANCE

(NAV, total return)

	Three Months	Year-to-Date	One Year	Annualized			
				Three Years	Five Years	Ten Years	Fifteen Years
Financial Services Fund - I Class	0.66%	3.61%	8.87%	13.62%	11.75%	10.41%	7.39%
Lipper Financial Services Funds Index	0.84	1.29	6.42	14.04	11.32	8.35	5.26
Russell 3000 Financial Index	4.30	4.74	11.89	16.09	13.39	8.56	5.81

Current performance may be higher or lower than the quoted past performance, which cannot guarantee future results. Share price, principal value, and return will vary, and you may have a gain or loss when you sell your shares. The performance information shown does not reflect the deduction of any redemption fee; if it did, the performance would be lower. To obtain the most recent month-end performance, or to request a prospectus or summary prospectus, which includes investment objectives, risks, fees, expenses, and other information that you should read and consider carefully before investing, please contact a T. Rowe Price representative at 1-855-405-6488. The T. Rowe Price fund shares the portfolio of an existing fund (the original share class of the fund is referred to as the "investor class"). The total return figures for this I Class have been calculated using the performance data of the Investor Class up to the inception date of the I Class (11/29/16) and the actual performance results of the I Class since that date. Because the I Classes are expected to have lower expenses than the Investor Classes, the I Class performance, had it existed over the periods shown, would have been higher. The average annual total return figures include changes in principal value, reinvested dividends, and capital gain distributions.

INVESTMENT OBJECTIVE AND STRATEGY

The fund seeks long-term growth of capital and a modest level of income.

Invest at least 80% of net assets in the common stocks of financial services companies. The fund may also invest in companies deriving substantial revenues from conducting business with the industry.

Stock selection is based on fundamental, bottom-up analysis to identify companies with good appreciation prospects. We use both growth and value approaches in selecting investments.

BENEFITS AND RISKS

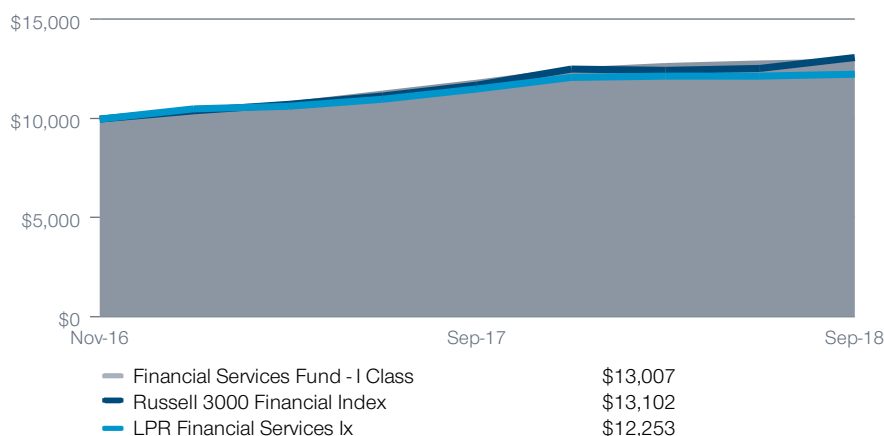

Trends in financial services offer opportunities for significant long-term capital appreciation.

The fund is less diversified than stock funds investing in a broader range of industries, so it could experience significant volatility. However, dividends paid by financial services firms may moderate this risk.

Financial services companies may be hurt when interest rates rise sharply and may be vulnerable to rapidly rising inflation.

CUMULATIVE RETURNS

Growth of \$10,000

TOP 10 ISSUERS

	Industry	% of Fund	% of Russell 3000 Fi- nancial Index
JPMorgan Chase	Money Center Banks	5.3%	6.2%

	Banks	Insurance	Capital Markets	Finance	Real Es- tate	Misc.
Financial Services Fund - I Class	40.1%	23.8%	10.7%	8.3%	5.6%	3.2%
Russell 3000 Financial Index	29.2	19.9	10.5	17.6	15.9	6.8
Over/Underweight	10.9	3.9	0.2	-9.4	-10.3	-3.6

Definitions

Beta: A measure of market risk of an investment option that shows how responsive the investment is to a given market index, such as the Standard & Poor's 500 Index. By definition, the beta of the benchmark is 1.00. An investment with a beta of 1.10 is expected to perform 10% better than the index in up markets and 10% worse in down markets. Usually, higher betas represent riskier investments.
