*The I-Class operates under a contractual operating expense limitation that expires on September 30, 2019. The fund's net expense ratio reflects a permanent waiver of a portion of the T. Rowe Price Associates, Inc. management fee charged to the fund. This waiver is an amount sufficient to fully offset any acquired fund fees and expenses related to investments in other T. Rowe Price mutual funds. T. Rowe Price funds would be required to seek regulatory approval in order to terminate this arrangement. Figure is equivalent to the annual Operating Expense ratio.

†Portfolio Turnover represents 1 year period ending 12/31/17.

Current performance may be higher or lower than the quoted past performance, which cannot guarantee future results. Share price, principal value, and return will vary, and you may have a gain or loss when you sell your shares. The performance information shown does not reflect the deduction of any redemption fee; if it did, the performance would be lower. To obtain the most recent month-end performance, or to request a prospectus or summary prospectus, which includes investment objectives, risks, fees, expenses, and other information that you should read and consider carefully before investing, please contact a T. Rowe Price representative at 1-855-405-6488. The T. Rowe Price fund shares the portfolio of an existing fund (the original share class of the fund is referred to as the "investor class"). The total return figures for this I Class have been calculated using the performance data of the Investor Class up to the inception date of the I Class (8/28/15) and the actual performance results of the I Class since that date. Because the I Classes are expected to have lower expenses than the Investor Classes, the I Class performance, had it existed over the periods shown, would have been higher. The average annual total return figures include changes in principal value, reinvested dividends, and capital gain distributions.

^oExcludes the effect of contractual expense limitation arrangements.

INVESTMENT OBJECTIVE AND STRATEGY

The fund seeks to maximize total return through income and capital appreciation.

Invest at least 80% of assets in income producing investment-grade debt securities.

No maturity restrictions, but the weighted average maturity is expected to range from four to 15 years.

Flexibility in purchasing investment grade debt securities at various credit quality levels to achieve a higher yield.

BENEFITS AND RISKS

The fund provides a higher level of income for moderately more risk relative to a money market or short-term bond fund.

Generally less volatile than longer-term bond funds.

High-quality bonds provide low credit risk.

The fund is subject to interest rate risk.

The fund is not a money market fund and its price and yield will fluctuate.

MORNINGSTAR™

Overall Morningstar Rating™

Morningstar Category™ Intermediate-Term Bond

Rated against 902 Intermediate-Term Bond funds, as of 9/30/2018, based on risk-adjusted total return. Ratings are determined monthly and subject to change. The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its 3-, 5- and 10-year (if applicable) Morningstar Rating metrics.

*U.S. Treasury securities are issued by the U.S. Treasury and are backed by the full faith and credit of the U.S. government. The ratings of U.S. Treasury securities are derived from the ratings on the U.S. government.

**U.S. government agency securities are issued or guaranteed by a U.S. government agency, and may include conventional pass-through securities and collateralized mortgage obligations; unlike Treasuries, government agency securities are not issued directly by the U.S. government and are generally unrated but may have credit support from the U.S. Treasury (e.g., FHLMC and FNMA issues) or a direct government guarantee (e.g., GNMA issues). Therefore, this category may include rated and unrated securities.

Definitions

Beta: A measure of market risk of an investment option that shows how responsive the investment is to a given market index, such as the Standard & Poor's 500 Index. By definition, the beta of the benchmark is 1.00. An investment with a beta of 1.10 is expected to perform 10% better than the index in up markets and 10% worse in down markets. Usually, higher betas represent riskier investments.

Additional Disclosures

Morningstar rated the fund 3 stars among 902 Intermediate-Term Bond funds for the 3-year period (as applicable) ending 9/30/2018, respectively. The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. T. Rowe Price uses a custom structure for diversification reporting on this product.

Diversification exhibits may not add to 100% due to exclusion or inclusion of cash.

Sources for credit quality: Moody's Investors Service; if Moody's does not rate a security, then Standard & Poor's (S&P) is used as a secondary source. When available, T. Rowe Price will use Fitch for securities that are not rated by Moody's or S&P. T. Rowe Price does not evaluate these ratings, but simply assigns them to the appropriate credit quality category as determined by the rating agency. T. Rowe Price uses the rating of the underlying investment vehicle for credit default swaps.
