**The redemption fee applies on shares held for 90 days or less.

†Portfolio Turnover represents 1 year period ending 12/31/17.

INVESTMENT OBJECTIVE AND STRATEGY

The fund seeks long-term growth of capital.

The fund normally invests in small- and mid-cap U.S. companies. The fund expects to invest predominantly in common stocks, but may occasionally purchase other types of equity securities or equity-related instruments.

The "QM" in the fund's name reflects the concept that the fund employs a "quantitative management" strategy. Based on this model, the portfolio is typically constructed in a "bottom up" manner.

The portfolio is generally constructed by buying higher ranked stocks and selecting stocks to sell from those that have a lower rank, subject to overall risk controls and desired portfolio characteristics.

BENEFITS AND RISKS

The fund is broadly diversified and invests primarily in securities issued by small- and mid-cap companies. It is likely to be more volatile than a fund that focuses on securities issued by larger companies.

The fund's strategy relies heavily on quantitative models to analyze data and construct investment portfolios which entails risk that the models may be limited, incorrect, or incomplete and may impact the selection of stocks.

The fund's share price can fall because of weakness in the broad market, a particular industry, or specific holdings

CUMULATIVE RETURNS

Growth of \$10,000

PERFORMANCE

(NAV, total return)

| | Three Months | Year-to-Date | One Year | Annualized Since Inception 2/26/16 |
|--|--------------|--------------|----------|------------------------------------|
| QM U.S. Small & Mid-Cap Core Equity Fund - I Class | 4.80% | 8.32% | 14.52% | 19.24% |
| Russell 2500 Index | 4.70 | 10.41 | 16.19 | 20.76 |

Current performance may be higher or lower than the quoted past performance, which cannot guarantee future results. Share price, principal value, and return will vary, and you may have a gain or loss when you sell your shares. The performance information shown does not reflect the deduction of any redemption fee; if it did, the performance would be lower. To obtain the most recent month-end performance, or to request a prospectus or summary prospectus, which includes investment objectives, risks, fees, expenses, and other information that you should read and consider carefully before investing, please contact a T. Rowe Price representative at 1-855-405-6488. The average annual total return figures include changes in principal value, reinvested dividends, and capital gain distributions.

Definitions

Beta: A measure of market risk of an investment option that shows how responsive the investment is to a given market index, such as the Standard & Poor's 500 Index. By definition, the beta of the benchmark is 1.00. An investment with a beta of 1.10 is expected to perform 10% better than the index in up markets and 10% worse in down markets. Usually, higher betas represent riskier investments.

Additional Disclosures

T. Rowe Price uses the MSCI/S&P Global Industry Classification Standard (GICS) for sector and industry reporting. Each year, MSCI and S&P review the GICS structure. The last change occurred on September 28, 2018. **The information above currently utilizes the GICS structure in place prior to the recent change on September 28, 2018, and will be updated upon the next reporting cycle.** T. Rowe Price will adhere to all future updates to GICS for prospective reporting. Source for Morningstar data: © 2018 Morningstar, Inc. All Rights Reserved.
