Current performance may be higher or lower than the quoted past performance, which cannot guarantee future results. Share price, principal value, and return will vary, and you may have a gain or loss when you sell your shares. The performance information shown does not reflect the deduction of any redemption fee; if it did, the performance would be lower. To obtain the most recent month-end performance, or to request a prospectus or summary prospectus, which includes investment objectives, risks, fees, expenses, and other information that you should read and consider carefully before investing, please visit our website or contact a T. Rowe Price representative at 1-855-405-6488. The average annual total return figures include changes in principal value, reinvested dividends, and capital gain distributions.

INVESTMENT OBJECTIVE AND STRATEGY

The fund seeks long-term capital growth by investing primarily in small companies whose common stocks are believed to be undervalued.

Focus on small-company stocks T. Rowe Price believes do not reflect their underlying value.

Intensive in-house research identifies undervalued stocks by considering, among other factors:

- Low price/earnings, price/book value, and price/cash flow ratios
- Solid financial characteristics

BENEFITS AND RISKS

Small-cap stocks offer greater capital appreciation potential than large-company stocks.

Flexibility to respond more quickly to changes in the marketplace.

Small companies tend to be riskier than large companies.

CUMULATIVE RETURNS

Growth of \$10,000

MORNINGSTAR™

Overall Morningstar Rating™

Morningstar Category™ Small Blend

Rated against 652 Small Blend funds, as of 9/30/2018, based on risk-adjusted total return. Ratings are determined monthly and subject to change. The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its 3-, 5- and 10-year (if applicable) Morningstar Rating metrics.

Definitions

Beta: A measure of market risk of an investment option that shows how responsive the investment is to a given market index, such as the Standard & Poor's 500 Index. By definition, the beta of the benchmark is 1.00. An investment with a beta of 1.10 is expected to perform 10% better than the index in up markets and 10% worse in down markets. Usually, higher betas represent riskier investments.

Additional Disclosures

T. Rowe Price uses the MSCI/S&P Global Industry Classification Standard (GICS) for sector and industry reporting. Each year, MSCI and S&P review the GICS structure. The last change occurred on September 28, 2018. **The information above currently utilizes the GICS structure in place prior to the recent change on September 28, 2018, and will be updated upon the next reporting cycle.** T. Rowe Price will adhere to all future updates to GICS for prospective reporting.

Morningstar rated the fund 5, 4, and 4 stars among 652, 539 and 388 Small Blend funds for the 3-, 5-, and 10-year periods (as applicable) ending 9/30/2018, respectively. The Morningstar Rating™ for funds, or "star rating", is calculated for funds with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star.
