¹ The T. Rowe Price US High Yield Fund ("Fund") commenced operations on May 19, 2017. At that time, the Fund received all of the assets and liabilities of the Henderson High Yield Opportunities Fund (the "Predecessor Fund") and adopted its performance and accounting history. The Fund and the Predecessor Fund have substantially similar investment objectives and strategies. The Predecessor Fund was managed by the same portfolio manager as the Fund.

² The Fund commenced operations on May 19, 2017. Performance prior to that date reflects the performance of the Class I of the Predecessor Fund.

Predecessor Fund performance reflects its actual operating expense at the time and was not adjusted to reflect the impact of the Fund's current fees. Since inception returns are shown from the inception date of the Predecessor Fund, April 30, 2013.

INVESTMENT OBJECTIVE AND STRATEGY

The fund seeks total return, and secondarily, current income.

The fund primarily invests in U.S. below-investment grade corporate debt securities.

- At least 80% of its net assets in high yield bonds.

Utilize a disciplined, fundamental, bottom-up credit selection process, combined with forward-looking research to identify high conviction total return opportunities.

- Flexibility to invest across the full capital structure spectrum.

BENEFITS AND RISKS

The fund seeks to deliver greater income and total return potential than traditional higher quality fixed income securities in exchange for higher credit risk.

Provides investors access to the traditional U.S. focused high yield opportunity set.

All investments are subject to risk, including the possible loss of principal. Fixed-income securities are subject to credit risk (high-yield bonds carry a greater default risk than higher-rated bonds), liquidity risk, call risk, and interest-rate risk. Yield and share price will vary with interest rate changes.
