

Fiduciary Checklist

The following are areas of review that retirement plan fiduciaries may want to consider when fulfilling their fiduciary responsibilities. Plan sponsors and plan officials are encouraged to consult their ERISA counsel for additional guidance and information.

MY ROLE AS A FIDUCIARY

Consider reviewing this information annually

- Consider if your duties cause you to exercise discretion over plan assets or administration (hiring service providers, making investment choices, spending plan assets, etc.). If so, you are a fiduciary and need to make sure you understand and comply with your duties.
 - Consider establishing procedures for delegating fiduciary authority, including consideration of whether you should make a written delegation clearly identifying the scope of delegated authority; for example, using a third party.
 - Provide fiduciary education for new fiduciaries as well as continuing education for all fiduciaries.

BASIC FIDUCIARY DUTIES

Consider reviewing this information annually

- Keep records of meetings and decisions so that you can demonstrate your compliance with a prudent process.
- Develop written procedures for routine fiduciary decisions. For example, do you have a process for making investment decisions or hiring service providers?
- Consider asking plan counsel to make sure you are complying with any prohibited transaction exemptions that might be necessary.
- Act in accordance with the documents and instruments governing the plan.

OVERSEEING INVESTMENTS

Timing of review is dependent upon the facts and circumstances of each plan and service arrangement

- Find out who is responsible for directing investments in your plan.
- Consider setting up a formal investment committee if you don't have one.
- Consider developing an investment policy statement documenting all of the plan requirements and processes.
- Review company stock options (if any) for compliance and consider engaging an independent fiduciary to help monitor the appropriateness of company stock as an investment option.
- Consider engaging an independent fiduciary to help monitor the appropriateness of all investment options.

OVERSEEING SERVICE PROVIDERS

Timing of review is dependent upon the facts and circumstances of each plan and service arrangement

- Conduct a periodic review of service providers to ensure that service and performance standards are being met.
- Document the review/meetings and issues discussed as well as any decisions made during, or as a result of, the review/meetings.
- Familiarize yourself with the requirements of Section 408(b)(2).
 - Review the fees (direct and indirect) of service providers to assess the reasonableness of fees and whether any conflicts exist.
- Conduct an in-depth review of service providers periodically to ensure that your fees and arrangements are consistent with current practices and costs and to determine whether a new request for proposal process is warranted.

HELPING PARTICIPANTS

Consider reviewing this information annually

- Talk to your service providers about providing required participant disclosures.
- Provide ongoing communications on investments and plan features (e.g., loans, distributions, or contributions).
- Make sure all communications are accurate.
- Distribute information to all eligible employees regarding the investment options available under the plan.
- Consider conducting educational meetings and providing general financial/investment information.
- Consider using automatic enrollment with a qualified default investment alternative (QDIA).

PLAN ADMINISTRATOR BASICS

Consider reviewing this information annually

- Develop a compliance plan or calendar* to keep track of the various deadlines throughout the plan year.
- Periodically review the plan documents to ensure that they reflect current practices and have been updated for legal and regulatory changes.
- Complete and file all required government reporting, such as the Form 5500.
- Comply with the applicable Internal Revenue Code nondiscrimination tests.
- Review the process for achieving the following in a timely manner:
 - collecting employee contributions and loan repayments,
 - forwarding contributions and loan repayments to the service provider, and
 - investing the contributions and loan repayments.

*Review a comprehensive compliance calendar on the following page.

FIDUCIARY LIABILITY/DOL AUDIT

Consider reviewing this information annually

- Maintain a well-documented, prudent fiduciary process for decision-making.
 - Consider including documentation that decisions were actually made.
- Consider obtaining liability insurance that protects plan fiduciaries from the costs associated with litigation (including unfavorable judgments).
- Designate a point person (often an in-house or outside attorney) to coordinate and work with the Department of Labor (DOL) in the event of an investigation.
